CHAIRMAN & CEO REPORT

On behalf of the Experience Co Limited Board and Management, we are pleased to present the Annual Report for the year ended 30 June 2021.

The year saw a continuation of the global pandemic that dramatically impacted the tourism industry from early 2020. As the year progressed, we saw improved momentum in trading volumes in key markets, with demand restricted to domestic customers and indeed for a large part of the year only local and intrastate customers.

Underlying EBITDA of \$6.8 million reflected the impact of the pandemic on the Group's earnings. The Board and Management have been deliberate in maintaining the core capacity of the business to respond to demand.

We ended the year with a more robust financial position following the completion of business simplification initiatives, and look forward to welcoming acquisitions into the portfolio including Wild Bush Luxury and Maria Island Walk

Since year end, we have seen the Delta COVID-19 strain have a significant impact on key operating locations and domestic source markets, in particular with lockdowns in the Sydney, Melbourne and South East Queensland metropolitan regions. This will have an impact on near term earnings into the first half of FY22, however it is encouraging to see vaccination rates improve in recent months which will be a catalyst for improved domestic and international tourism.

YEAR IN REVIEW

The year commenced with a reopening phase, with reopening of our Victoria skydiving drop zones in November 2020 representing the last significant operation to open up.

Trading was impacted by intermittent lock downs in key geographies and the closure of state borders, however we end the period with increased confidence in the ability of the business to flex and meet demand as we continue in the recovery phase. International visitation, so long a key contributor to our business, was negligible in the period with both Australian and New Zealand effectively closed to international tourists.

In these most trying of circumstances we are pleased to report that it was a year of achievement not just adversity.

The business simplification initiative was completed with the sale of the white water rafting and ballooning activities. Overall this project has been a key driver in deleveraging the balance sheet with net debt reducing from \$9.0 million at 30 June 2020 to \$2.8 million at 30 June 2021.

The Group has successfully worked with stakeholders at all levels and participated in government initiatives such as Jobkeeper (Australia), the Strategic Tourism Asset Protection Program (New Zealand) and Queensland Tourism Icons Program that have all been vital to the wellbeing of our workforce. We have also worked closely with our financiers to ensure we work with a common purpose to extend debt maturity and relax covenants, while meeting all obligations for interest and principal payments on time, every time.

INVESTING IN THE FUTURE

Our team in North Queensland are excited to be working with the Queensland Government on the Growing Tourism Infrastructure programme, for which they have pledged \$3 million for our new Dreamtime Island pontoon product on the Great Barrier Reef scheduled to be launched in the coming Summer.

We are delighted to welcome Wild Bush Luxury and the Maria Island Walk to our portfolio. These domestic nature based offerings are award winning experiences and represent the start of a new Premium Adventure segment for our company. As part of this acquisition we are delighted that Charles Carlow will join EXP as the General Manager of this new segment.

BOARD AND MANAGEMENT

The Board and Management renewal in the FY20 period has placed the business in good stead to navigate the pandemic. There were no changes in the period, and reflects the commitment of both the Board and Management to see the Group through this crisis.

DIVIDEND

Given the COVID-19 pandemic's impact on the business, the Directors have determined that a final dividend for FY21 will not be declared.

OUTLOOK

The Group enters the new financial year with optimism for the medium to long term prospects for the business, with each segment of the business well positioned to grow our market leading positions as trading conditions improve.

Notwithstanding, FY22 earnings are expected to continue to be impacted by the pandemic and in particular the velocity and efficacy of vaccine implementation strategies domestically and globally. The Group anticipates international borders will remain closed to tourism for the coming financial year, and more locally, domestic border uncertainty and confidence are expected to be factors influencing volumes until the end of 2021.

The Group remains focused on prudently managing the business through the impacts of the pandemic in the short term and maintaining the ability of the business to scale up as demand returns.

ACKNOWLEDGEMENTS

We once again this year thank our fellow Directors, EXP Senior Management and staff for their continued commitment and performance in a constantly changing environment.

Thank you also to our customers, trading partners and all other stakeholders for their ongoing support of the Group.

REVIEW OF OPERATIONS

Principal Activities

The principal activities of the Group during the period were the provision of adventure tourism and leisure experiences, comprising the core businesses:

- tandem skydiving in Australia and New Zealand,
- boat tours, snorkeling and diving on the Great Barrier Reef, and rainforest tours in the Daintree in North Queensland.

The experiences cater to international and domestic customers, with international visitors typically representing over 65% of pre pandemic volume.

In April 2021, the Group announced the acquisition of Wild Bush Luxury and Maria Island Walk. These acquisitions will form the beginning of a new Premium Adventure category. The entry into the Premium Adventure category and the acquired assets aligns with management's positive outlook for domestic, nature-based experiences. In the near term, the category is expected to benefit from the tailwinds of continued uncertainty on the timing of international tourism returning to pre COVID conditions.

Heading into the pandemic recovery period both businesses have strong forward bookings and potential for growth. The category is expected to benefit over time as international travel returns.

The divestment of non-core operations was completed during the period, with the sale of white water rafting and Cairns ballooning. This followed the divestment of GBR Helicopters, Cairns Canyoning, Byron Bay Ballooning and Hunter Valley Ballooning in FY20.

DIRECTORS' REPORT

REVIEW OF OPERATIONS (CONTINUED)

Group Financial Performance

	30 June 2021 \$000	30 June 2020 \$000	% change
Revenue from continuing operations	44,449	87,402	(49%)
Underlying EBITDA from continuing operations	6,761	9,230	(27%)
Net loss after taxfrom continuing and discontinued operations attributable to shareholders	(4,301)	(51,413)	(92%)
Net debt	2,779	9,019	(69%)

The Group incurred a net loss after tax from continuing and discontinued operations of \$4.3 million (30 June 2020: \$51.4 million loss).

The decrease in Underlying EBITDA from continuing operations to \$6.8 million (30 June 2020: \$9.2 million) was attributable to the full year impact of the pandemic on our business, with domestic and international border restrictions along with social distancing and health advice constraining demand and operational capacity in the period, in part offset by financial assistance provided by various levels of Government

The Group's financial position at the end of the period demonstrates the success of the business simplification initiative to date, with the Group now in a more robust position to navigate the near term challenges of the pandemic and well positioned to execute growth opportunities in the recovery period.

As at 30 June 2021 the Group had cash and cash equivalents of \$13.3 million and net debt had reduced to \$2.8 million from \$9.0 million at 30 June 2020. The Group is extremely pleased with this achievement, particularly in light of the challenging market conditions that have prevailed over the last twelve months.

COVID-19

The Group remains vigilant in its compliance with health advice and requirements in all aspects of our operation, and this will continue to be a priority as long as the pandemic continues. The recent Delta variant outbreaks in Australia and consequent lockdowns of major metropolitan populations, in particular Sydney, evidences the ongoing impact of the pandemic with lockdowns being a key tool to manage suppression until sufficient vaccination levels are achieved.

We continue to participate in and monitor developments in initiatives to assist our business navigate the pandemic.

Discontinued operations

The discontinued operations remained mothballed during the period with the financial contribution representing the holding costs for the period.

OUTLOOK

The Group enters the new financial year with growing optimism on the medium to long term prospects for the business, with each segment of the business well positioned to grow our market leading positions.

Notwithstanding, FY22 earnings are expected to continue to be impacted by the pandemic and in particular the velocity and efficacy of vaccine implementation strategies domestically and globally. The Group anticipates international borders will remain closed to tourism for the coming financial year, with the exception of the trans tasman bubble and potentially similar targeted destinations. More locally, domestic border uncertainty and confidence are expected to factor at least until the end of 2021.

The Group remains focused on prudently managing the business through the impacts of the pandemic in the short term and maintaining the ability of the business to scale up as demand returns.

DIVIDENDS

No dividend was paid or declared during the period.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Except for the divestment of non-core assets, in the opinion of the Directors, there have been no other significant changes in the Group's state of affairs during the year.

DIRECTORS' REPORT

SUBSEQUENT EVENTS

Subsequent to balance date the Group has completed the acquisitions of the business assets of Wild Bush Luxury on 19 July 2021. It is anticipated that the Maria Island Walk will be completed by the end the first quarter.

OPTIONS AND RIGHTS

Details on options and rights are set out in the Remuneration Report in relation to KMP.

ENVIRONMENTAL

The Group holds relevant and valid permits under regulatory bodies such as the Great Barrier Reef Marine Park Authority (GBRMPA) and Queensland Parks and Wildlife Service (QPWS) and the Group carries out its activities within the guidelines prescribed by such regulators. Compliance with existing environmental regulations and new regulations are monitored annually. The Group continues to support best practice operations with a focus on protection of the Great Barrier Reef and the environment as a whole. The directors are not aware of any material breaches during the period covered by this report.

For the financial year ended 30 June 2021 and as at the date of this report, the Group has not been prosecuted nor incurred any infringement penalty for environmental incidents.

Respecting the environment in which we operate is a core value of the Group. Moving forward, the Group will continue to build on this foundation with a view to implementing more formalised measuring and monitoring initiatives..

REMUNERATION REPORT

REMUNERATION POLICY AND GOVERNANCE

The Remuneration and Nomination Committee reviews Senior Executive remuneration packages annually with reference to the Group's financial performance, the performance of the individual Senior Executive and relevant comparable industry information.

The remuneration policy aims to ensure that the remuneration structures:

- · Are aligned to the business needs, goals, values and objectives
- Are competitive and reasonable
- Enable the Company to motivate, attract and retain Senior Executives
- Promotes long-term sustainable growth in shareholder value

The EXP Employee Incentive Plan (EEIP) is designed to encourage employees to share in the ownership and promote the long-term success of the Company. Employees under the EEIP include full-time or permanent part-time employees or officers and Directors of the Company or any related body corporate of the Company.

The EEIP is designed with flexibility to grant awards including Service Rights (subject to service based vesting conditions) and Performance Rights (subject to long-term performance based vesting conditions and the Board's discretion) as part of STIs and LTIs. Participation in the EEIP is at the Board's discretion.

At the 2020 Annual General Meeting, EXP received over 99% of "in favour" votes on its remuneration report for the 2020 financial year.

KEY MANAGEMENT PERSONNEL

The Key Management Personnel (KMP) for the Group for FY21, are those persons whose remuneration must be disclosed in this report and includes Non-Executive Directors, Executive Directors and members of the Senior Executive who have the authority and responsibility for planning, directing and controlling the activities of the Group.

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES

The financial report of Experience Co Limited (the Company) and its controlled entities (collectively, the Group) for the financial year ended 30 June 2021 were authorised for issue in accordance with the resolution of the directors.

Experience Co Limited is listed on the Australian Securities Exchange, incorporated and domiciled in Australia and whose shares are publicly traded. The registered office is located at Level 1, 17 Castlereagh Street, Sydney, New South Wales, Australia.

BASIS OF PREPARATION

This financial report is a general purpose financial report prepared in accordance with the Corporations Act 2001, Australian Accounting Standards (AAS) and Interpretations of the Australian Accounting Standards Board (AASB). The consolidated financial report complies with the International Financial Reporting Standards (IFRS) and interpretations adopted by the International Accounting Standards Board.

All amounts are presented in Australian dollars, unless otherwise noted.

The financial report is prepared on a historical cost basis except for the revaluation of financial assets and liabilities and a class of property plant and equipment which are stated at fair value.

The company is of a kind referred to in Corporations Instruments 2016/191 issued by ASIC, relating to rounding off. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

In accordance with the Corporations Act 2001, these financial statements present the results of the Group only. Supplementary information about the parent entity is disclosed in Note 28.

The accounting policies adopted in the preparation of the interim financial report are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 30 June 2020, except for the adoption of new standards effective as of 1 July 2020. Certain comparative information has been reclassified to conform with the presentation of the current year. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

NEW ACCOUNTING STANDARDS FOR APPLICATION IN FUTURE PERIODS

New AAS and Interpretations not yet mandatory or early adopted AAS that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the reporting period ended 30 June 2021. The Group does not expect that new or amended AAS and Interpretations would have a material impact.

CONCEPTUAL FRAMEWORK FOR FINANCIAL REPORTING (CONCEPTUAL FRAMEWORK)

The consolidated entity has adopted the revised Conceptual Framework from 1 July 2020. The Conceptual Framework contains new definition and recognition criteria as well as new guidance on measurement that affects several Accounting Standards, but it has not had a material impact on the consolidated entity's financial statements.

GOING CONCERN

In preparing the financial report, the Directors have made an assessment of the ability of the Group to continue as a going concern, which contemplates the continuity of business operations, realisation of assets and settlement of liabilities in the ordinary course of business.

For the period ended 30 June 2021, COVID-19 has been a key factor in the Group's operations and we note the following:

- Cash and cash equivalents of \$13.3 million (30 June 2020: \$12.5 million) and net debt decreased to \$2.8 million (30 June 2020: \$9.0 million).
- Trading volumes improved over the period following the recommencement of operations from late in the previous financial year and the Group reported net cash inflows over the period.
- The Group continued to work with its lender, National Australia Bank ('NAB'), and extended the maturity of corporate debt facility to 31 August 2022 and the resetting of covenants to take into account the impact of the pandemic.
- The Group has met all interest and scheduled amortisation payments during the period, and as at the end of the period has no material financing or rental deferrals repayable.
- The Group has participated in the Jobkeeper and Wage Subsidy programmes in Australia and New Zealand respectively and continues to work with various levels of Government on eligible financial assistance programmes.

The Directors have assessed cash flow projections for the two years from 30 June 2021 taking into consideration the estimation of the continued business impacts of COVID-19. These projections indicate that, taking account of reasonably possible downsides, the Group is expected to continue to operate, based on an assessment of forward earnings, existing cash levels and ongoing communications with debt and equity providers.

Based on these forecasts, the Directors believe that it remains appropriate to prepare the financial statements on a going concern basis and have a reasonable expectation that the Group will continue to meet its obligations as and when they fall due.

BASIS OF CONSOLIDATION

Controlled entities

Controlled entities are entities controlled by the Company. Control exists when the Company is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Non-controlling interests (NCI)

NCI are initially measured at their proportionate share of the acquiree's identifiable net assets as at acquisition. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

Business Combinations

Business combinations are accounted for applying the acquisition method as at acquisition date, unless it is a combination involving entities or businesses under common control.

When measuring consideration, any asset or liability arising from a contingent consideration arrangement is included. Subsequent to initial recognition, contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration that is an asset or liability is remeasured at each reporting period to fair value, recognising any change in fair value in profit or loss.

Transaction costs, other than those associated with the issue of a financial instrument are recognised as expenses as incurred.

Goodwill at acquisition date is measured based on the excess of the sum of:

- the fair value of consideration transferred:
- any non-controlling interest determined under either the full goodwill or proportionate interest method; and
- the fair value of any previously held equity interest

over the acquisition date fair value of identifiable net assets acquired.

Intercompany transactions

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

Loss of control

In the event the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary, and any related non controlling interest and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the previously controlled subsidiary is measured at fair value as at the date control ceased.

DISCONTINUED OPERATIONS AND ASSETS HELD FOR SALE

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished for the rest of the Group and which:

- represents a separate major line of business or geographic area of operations;
- Is part of a single co-ordinate plan to dispose of a separate major line of business or geographic area of operations; or
- Is a subsidiary acquired exclusively with a view to re-sale

Classification as a discontinued operation occurs at the earlier of the date of disposal or when the operation meets the criteria to be classified as held for sale.

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continued use. They are measured at the lower of their carrying amount and fair value less costs of disposal. For non-current assets or assets of disposal groups to be classified as held for sale, they must be available for immediate sale in their present condition and their sale must be highly probable.

FOREIGN CURRENCY

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined. Foreign currency differences arising on translation are recognised in profit or loss.

FOREIGN CURRENCY (CONTINUED)

Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition are translated to Australian dollars at exchange rates at the reporting date. The revenue and expenses of foreign operations are translated to Australian dollars at rates approximating the foreign exchange rates at the dates of the transactions.

Foreign currency differences are recognised in other comprehensive income, and presented in the foreign currency translation reserve in equity.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, deposits available on demand with banks, other short-term highly liquid investments with original maturities of 30 days or less.

TRADE AND OTHER RECEIVABLES

Trade receivables and other receivables are initially recognised at fair value and subsequently measured at amortised cost less any allowance for expected credit losses.

The consolidated entity has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue. Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

INVENTORIES

Inventories are measured at the lower of cost and net realisable value. Costs are assigned on a weighted or specific item basis. An impairment allowance is made for obsolete, damaged and slow moving inventories.

PROPERTY, PLANT AND EQUIPMENT

Each class of property, plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment loss, except for aircraft.

Aircraft assets are measured under the revaluation model and accounted for at their fair value, being the amount for which the asset could be exchanged between knowledgeable willing parties in an arm's length transaction, based on periodic valuations by external independent valuers or director valuations, less subsequent depreciation.

Subsequent expenditure

Subsequent expenditure, is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

Maintenance costs are expenses as incurred.

Depreciation

Each asset, except for aircraft engine assets, is depreciated on a straight line basis over the estimated useful life from the date of acquisition, or for internally constructed assets from the time the asset is completed and available for use.

Aircraft engines are depreciated based on operating hours over the estimated useful life being time before overhaul, which is determined by manufacturer specifications and regulatory requirements.

The depreciation rate and residual value estimates for each asset class are:

ASSET CLASS	DEPRECIATION RATE	RESIDUAL VALUE (%)
Aircraft frames	5%	Specific to aircraft
Aircraft engines	Operating hours	Specific to aircraft
Motor vehicles	10%	0%
Buildings	2.5%	0%
Leasehold improvements	2.5%	0%
Office equipment	25%	0%
Vessels	5% - 20%	0% - 30%

INTANGIBLE ASSETS

Goodwill

Goodwill that arises upon the acquisition of subsidiaries is included in intangible assets. Subsequent to acquisition, goodwill is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Computer software

Computer software comprises licence costs and direct costs incurred in developing and/or preparing for the operation of that software. Computer software is measured at cost less accumulated amortisation and impairment losses.

Other intangible assets

Trademarks, customer relationships and leases and licences acquired in a business combination are recognised at fair value as at acquisition date. Trademarks have an indefinite useful life and are measured at cost less accumulated impairment losses. Customer relationships, leases and licences have a finite useful life and are measure at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation

Except for goodwill and trademarks, intangible assets are amortised on a straight line basis over their estimated useful life. The estimated useful life for customer relationships is 10 to 20 years, leases and licenses 4 to 20 years and software 3 to 5 years.

FINANCIAL INSTRUMENTS

The accounting polices for the Group's financial instruments are explained in Note 21.

IMPAIRMENT OF ASSETS

Financial

Financial assets are tested for impairment at each financial year end.

Non-financial

Goodwill and intangible assets that have an indefinite useful life are tested for impairment annually or as otherwise required under AASB 136. Other assets are tested for impairment whenever events or circumstances arise that indicate that the carrying amount of the asset may be impaired. An impairment loss is recognised where the carrying amount of the asset exceeds the recoverable amount. The recoverable amount of an asset is defined as the higher the fair value less costs of disposal and value in use.

TRADE AND OTHER PAYABLES

Trade and other payables represent the liabilities for goods and services received by the entity that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

EMPLOYEE BENEFITS

A provision is made for the Group's liability for employee benefits arising from the services rendered by employees to balance date. These benefits includes wages and salaries, annual leave and long service leave. Sick leave is non-vesting and has not been provided for.

Liabilities for wages and salaries, including non-monetary benefits, annual and long service leave that are expected to be settled wholly within 12 months after the end of the period are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the statement of financial position.

The group also has liabilities for long service leave and annual leave that are not expected to be settled wholly within 12 months after the end of the period. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period, applying a company probability factor based on the probability the employee will become entitled to long service leave.

SHARED BASED PAYMENTS/EQUITY SETTLED COMPENSATION

The Group operates a share based employee incentive program. Share-based payments to employees are measured at the fair value of the instruments issued and amortised over the vesting periods.

PROVISIONS

Provisions are recognised when the Group has a legal or constructive obligation as a result of a past event for which it is probable an outflow of economic benefits will be required to settle the obligation.

CONTRACT LIABILITIES

Contract liabilities represent the Group 's obligation to transfer goods or services to a Group customer and are recognised when a customer exchanges consideration or when the Group recognise a receivable to reflect its unconditional right to consideration in advance of the Group transferring goods or services to the customer.

LEASES

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The consolidated entity has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

COVID-19

In May 2020, the International Accounting Standards Board (Board) issued *Covid-19-Related Rent Concessions*, which amended IFRS 16 *Leases* such that rent concessions are not accounted for as lease modifications.

The amendment permits lessees, as a practical expedient, not to assess whether particular rent concessions occurring as a direct consequence of the COVID-19 pandemic are lease modifications and instead to account for those rent concessions as if they are not lease modifications

The Group adopted the COVID-19 concession as it met the applicable criteria.

REVENUE RECOGNITION

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the Group is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer the Group:

- identifies the contract with a customer;
- identifies the performance obligations in the contract;
- determines the transaction price based on separate performance obligations; and
- recognises revenue when or as each performance obligation is satisfied and in the case of unused vouchers or tickets an
 assessment of probability that the performance obligation will need to be satisfied.

Sale of goods

Revenue from the sale of goods is recognised at the point in time when the customer obtains control of the goods, which is generally at the time of delivery.

Rental income

Rental income is recognised on a straight-line basis over the period of the lease term so as to reflect a constant periodic rate of return on the net investment.

FINANCE INCOME AND FINANCE COSTS

Finance income comprises interest income on loan advances and funds invested. Finance income is recognised as it accrues in profit or loss, using the effective interest method.

Finance costs comprise interest expense on borrowings and leases.

Borrowing costs that are not directly attributable to an acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Foreign currency gains and losses on financial assets and financial liabilities are reported on a net basis as either finance income or finance costs.

INCOME TAX

Tax Consolidation - Australia

Experience Co Limited and its Australian wholly-owned subsidiaries have formed an income tax consolidated group under tax consolidation legislation. Each entity within the group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities/assets and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity.

The Group notified the Australian Taxation Office (ATO) that it had formed an income tax consolidated group to apply from 1 July 2014. The tax consolidated group has also entered into a tax funding arrangement whereby each company in the Group contributes to the income tax payable by the Group in proportion to their contribution to the Group's taxable income. Differences between amounts of net assets and liabilities derecognised and the net amounts recognised pursuant to their funding arrangement are recognised as either a contribution by, or distribution to, the head entity.

Tax Consolidation - New Zealand

Skydive (New Zealand) Limited and its New Zealand wholly-owned subsidiaries have formed an income tax consolidated group under tax consolidation legislation. Each entity within the group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities/assets and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity.

The New Zealand group of companies notified the Inland Revenue Department (IRD) that it had formed an income tax consolidated group to apply from 30 October 2015. The New Zealand tax consolidated group has also entered into a tax funding arrangement whereby each company in the Group contributes to the income tax payable by the Group in proportion to their contribution to the Group's taxable income. Differences between amounts of net assets and liabilities derecognised and the net amounts recognised pursuant to their funding arrangement are recognised as either a contribution by, or distribution to, the head entity.

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the relevant tax authority.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the relevant tax authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the relevant tax authority are presented as operating cash flows included in receipts from customers or payments to suppliers.

ACCOUNTING ESTIMATES AND JUDGEMENTS

In preparing these consolidated financial statements, management has made judgments, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expense. The estimates and associated assumptions are based on historical experience and on factors it believes to be reasonable under the circumstances, the results of which form the basis of the reported amounts that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

The judgements, estimates and assumptions that have a significant effect on the amounts recognised in the financial statements are:

- impairment of property, plant and equipment and intangibles refer to Note 14
- useful life and residual value of property, plant and equipment and finite life intangible assets refer Property, Plant & Equipment above.
- fair value for aircraft assets and fair value hierarchy-refer to Note 14 and 22
- allowance for expected credit loss on trade and other receivables refer to Note 21
- current and deferred tax assets refer to Note 8
- lease arrangement beyond the current lease contract period For a number of land and buildings leases as well as vessel's berth leases which are rolling on a month to month basis, the Group has made assumptions around the likelihood of resigning these leases and estimated terms of agreement.
- contract liabilities, or deferred income, for unused vouchers and tickets is estimated based on historical results and industry trends.

JOBKEEPER INCOME

Jobkeeper is presented as other income, and a corresponding expense in employee expenses. Income is recognised as a receivable when the associated wage payments are made.

GOVERNMENT GRANTS

Government grant income is recognised when the obligations under the relevant agreement have been satisfied.

NOTE 2 OPERATING SEGMENTS

IDENTIFICATION OF REPORTABLE OPERATING SEGMENTS

The Group has identified the following reportable operational segments based on a combination of factors including products and services, geographical areas and regulatory environment:

- Skydiving: comprises tandem skydive and related products, with ancillary aircraft maintenance activities.
- GBR Experiences reef based dive and snorkel experiences and rainforest tours operating out of Cairns and Port Douglas in the Tropical North Queensland region.
- Corporate: comprises the centralized management and business administration services.

These operating segments are based on the internal reports that are reviewed and used by the CEO in determining the allocation of resources. The CEO reviews Earnings before interest, taxes, depreciation and amortisation (EBITDA) at the segment level. The accounting policies adopted for internal reporting to the CEO are consistent with those adopted in the financial statements..

At the date of revaluation, the carrying amount of aircraft is adjusted to the revalued amount. Accumulated depreciation is eliminated against the gross carrying amount of the asset.

The Group's fixed wing aircraft were revalued at 30 June 2020 by independent valuers and the Directors. Valuations were based on the price that would be received to sell the asset in an orderly transaction between market participants. Due to the COVID-19 event there was no an active and liquid market in place to support an orderly transaction as at 30 June 2021 and as such the reliability of independent valuations at this point in time is inherently limited by market events. As a consequence, directors valuations were adopted for the 30 June 2021 balance date.

The directors valuations were determined on a aircraft by aircraft basis, taking into consideration the condition of the aircraft, including airframe and engine hours and discussion with independent valuers and desktop research on information available in the public domain. The valuation of aircraft is subject to a degree of judgement and factors such as the nature, condition and location of the aircraft.

Where an aircraft is taken out of regular service and held for sale, the item is reclassified to non current assets held for resale and the carrying amount stated at the net realisable value based on indicative offers, market valuations and other available information.

IMPAIRMENT DISCLOSURES

Intangible assets, other than goodwill and trademarks, have finite useful lives. The current amortisation charges for intangible assets are included under depreciation and amortisation expense per the statement of profit or loss. Goodwill and trademarks have an indefinite useful life.

The recoverable amount of each of the Group's CGUs has been determined based on value in use calculations. The future cash flow projections for the Group are subject to a significant level of pandemic uncertainty and are sensitive to the following key assumptions:

- Continuing closure of international borders into 2022 with a return to FY19 inbound visitation not expected until 2023.
- Domestic travel restrictions which the Group expects to materially impact operations for the remainder of 2021.
- Social distancing requirements that impact operations may lead to changes in operating capacity and efficiency of operations.
- Government assistance available to the Group.
- Emerging macroeconomic trends, in particular the impact on consumer discretionary spending by our target markets.

Cash flows are based on five year management projections, terminal growth rate of 2.0% and a pre tax discount rates of 19.9% for Skydive Australia and GBR Experiences (30 June 2020: 19.9%) and 22.4% for New Zealand Skydive (30 June 2020: 22.4%)

The Group notes cash flow projections are subject to a significant level of uncertainty, and accordingly actual future cash flows may be significantly more or less favourable than that determined as at balance date.

During the period the Group's Multi Option Facility Agreement with the National Australia Bank (NAB) was amended in response to the impact of COVID-19.

This included an extension of the Facility to 31 August 2022 and previous covenants being replaced by a minimum cash requirement of \$6 million.

The facility limits have been revised to the following as at 30 June 2021:

- Cash Advance Facility: \$7.4 million (30 June 2020: \$9.8 million), fully drawn at 30 June 2021.
- Master Asset Finance Facility: \$11.3 million (30 June 2020: \$11.3 million). Drawn to \$8.2 million as at 30 June 2021.

The Group has entered into a General Security Deed with NAB for both the Australian and New Zealand operations. NAB holds a security interest in and over all the secured property of the Group. The NAB Finance leases are generally 3 to 5 year maturity and are repayable on a monthly basis. Interest rates on these leases currently range from 3% to 5%. Interest on the Cash Advance Facility is payable quarterly and interest rates on this facility currently range from 2% to 3%.

The weighted average share price during the financial year was \$0.210 (2020: \$0.181). The weighted average remaining contractual life of options outstanding at the end of the financial year was 1.8 years (2020: 2 years).

Vesting conditions other than market conditions are not taken into account when estimating the fair value and any service requirement to be rendered is presumed to be satisfied.

The fair value at grant date is based on the market price of the shares reduced by the present value of dividends expected to be paid during the vesting period.

CAPITAL MANAGEMENT

The Group aims to meet their strategic objectives and operational needs through the appropriate use of debt and equity, while taking account of the additional financial risks of higher debt levels. Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

NOTE 20 RESERVES

NATURE AND PURPOSE OF RESERVES

- Asset Revaluation Reserve: records revaluations of non-current assets. Under certain circumstances dividends can be
 declared from this reserve.
- Option Reserve: records items recognised as expenses on valuation of employee share options.
- Common Control Reserve: represents the excess purchase consideration over the carrying value of assets and liabilities acquired in the group reorganization which occurred on 1 July 2014.
- Foreign Currency Translation Reserve: records exchange differences arising on translation of a foreign controlled subsidiary.

NOTE 21 FINANCIAL RISK MANAGEMENT

The Group has exposure to credit risk, liquidity risk and market risk arising from the use of financial instruments.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework.

a) Credit Risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

Credit Risk Exposures

The carrying amount of the Group's financial assets represents the maximum credit exposure.

N	otes	30 June 2021 \$000	30 June 2020 \$000
Cash and cash equivalents		13,321	12,469
Trade and other receivables		1,841	3,099
Loans		-	528
Financial assets		15,162	16,096

Cash and cash equivalents

Cash at bank and short-term deposits are held with Australian and New Zealand banks with acceptable credit ratings.

NOTE 21 FINANCIAL RISK MANAGEMENT (CONTINUED)

Trade and other receivables

Credit risk is managed through regular monitoring of customer accounts and payments. Such monitoring is used in assessing receivables for impairment. The Group has no significant concentration of credit risk with any single counterparty or group of counterparties. Credit risk is principally attributable to local and international travel agents and inbound tour operators, including online and traditional high street travel agents.

The Group does not normally require or hold collateral for the purposes of securing receivables.

Impairment of trade receivables

The Group applies the AASB 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables. To measure expected credit losses trade receivables have been grouped based on shared credit risk characteristics and historical credit loss.

The Group has sought to determine risk on characteristics of certain groups and their respective risk categories.

outstanding (\$000)	292	339	57	1,217	695	2,601
Expected credit loss	_	44	24	729	551	1,348

b) Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities when due, under normal and stressed conditions, without incurring unacceptable losses or reputational risk.

The Group maintains a general corporate facility and cash reserves to mitigate this exposure.

The following table details the Group's remaining contractual maturity for its financial instrument liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid.

NOTE 21 FINANCIAL RISK MANAGEMENT (CONTINUED)

c) Market Risk

i. Interest rate risk

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Group is also exposed to earnings volatility on floating rate instruments. The financial instruments that primarily expose the Group to interest rate risk are borrowings and cash and cash equivalents.

Interest rate risk is managed using a mix of fixed and floating rate debt. At 30 June 2021 approximately 54% (2020: 54%) of group debt is fixed.

ii. Foreign exchange risk

Exposure to foreign exchange risk may result in the fair value or future cash flows of a financial instrument fluctuating due to movement in foreign exchange rates of currencies other than the AUD functional currency of the Group.

With instruments being held by overseas operations, fluctuations in the NZ Dollar may impact on the Group's financial results.

There are currently no hedging arrangements in place to manage foreign currency risk.

Sensitivities

The Group does not account for any financial assets or liabilities at fair value through the profit and loss, and has no derivatives designated as hedging instruments under fair value hedge accounting model. As such, a change in interest rates at reporting date would not impact profit and loss.

In relation to variable interest rate instruments, principally being bank borrowings under the general purpose corporate facility, the impact of a 100 basis point change in interest rates at the reporting date is immaterial.

Fair values

The fair values of financial assets and financial liabilities approximate their carrying amounts in the statement of financial position.

NOTE 22 FAIR VALUE MEASUREMENT

FAIR VALUE HIERARCHY

The following tables detail the assets and liabilities of the Group, measured or disclosed at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the
 measurement date;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;
- Level 3: Unobservable inputs for the asset or liability

The following tables provide the fair values of the Group's assets and liabilities measured and recognised on a recurring basis after initial recognition and their categorisation within the fair value hierarchy.

	Level 1 \$000	Level 2 \$000	Level 3 \$000	Total \$000

NOTE 22 FAIR VALUE MEASUREMENT (CONTINUED)

Non-current assets held for sale

Non-current assets held for sale are carried at their market value assessed at the time when the assets were designated as held for sale. The fair value of assets held for sale is designated within level 2 of the fair value hierarchy when contracts have been exchanged for the subject assets. Level 3 assets are those being actively marketed but no contracts have been exchanged at year end.

Aircraft

The fair value of aircraft equipment is expected to be determined at least every two years based on valuations by an independent valuer, with the last revaluation being 30 June 2020. At the end of each intervening period, the directors review the independent valuation and, when appropriate, update the fair value measurement to reflect current market conditions using a range of valuation techniques, including recent observable market data.

Due to the COVID-19 event there was not an active and liquid market in place to support an orderly transaction as at 30 June 2021 and as such the reliability of independent valuations at this point in time is inherently limited by market events. As a consequence, directors valuations were adopted for the 30 June 2021 balance date.

NOTE 25 SUBSEQUENT EVENTS

Subsequent to balance date the Group has completed the acquisitions of the business assets of Wild Bush Luxury on 19 July 2021. It is anticipated that the Maria Island Walk will be completed in first quarter of FY22.

NOTE 26 CONTINGENT ASSETS AND LIABILITIES

As at 30 June 2021, the Group had drawn bank guarantees amounting to \$289,867 (30 June 2020; \$287,319).

The Group is defending a claim lodged in the Federal Court of Australia by certain contractor pilots of STBAUS Pty Ltd, a Group subsidiary, for an amount of approximately \$1.2 million. As at the date of this report, the Group is defending the claim.

There are no other contingent liabilities or assets requiring disclosure as at the date of this report.

NOTE 27 CONTROLLED ENTITIES

The subsidiaries listed have share capital consisting solely of ordinary shares which are held directly by the Group. The proportion of ownership interests held equals the voting rights held by Group. Each subsidiary's principal place of business is also its country of incorporation. Other than banking covenants there are no significant restrictions over the Group's ability to access or use assets, and settle liabilities, of the Group.

INDEPENDENT AUDITOR'S REPORT To the Members of Experience Co Limited

Opinion

We have audited the financial report of Experience Co Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2021, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2021 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
